## Utility Management Consultants, Ltd.

Seven – Utility Management Consultants, Ltd. is a professional consulting firm founded at the inception of Energy Deregulation in Texas by a group of **Energy Specialists** and experienced professionals. Our mission is simple...**to assist companies in reducing their Utility Expenses** by using our **knowledge of the current marketplace to properly analyze and negotiate** your Energy contract and rates.

Our process is **simple, swift and effective**, requiring very little of our client's time... This is our finest attribute.

Many companies with a national presence have received the benefit of our expertise in cost reduction. When you **outsource your Utility Negotiations to us**, we ensure that **your pricing is at or below current market conditions!**

We will:

- Properly review this expense by analyzing your usage patterns. We will correct billing errors and process refunds if you qualify.
- Professionally negotiate proposals from the most qualified local utility suppliers and present to you our written recommendation in executive summary format. With our recommendation, you decide which energy or utility supplier to use.
- Manage your expense throughout the contract term, renegotiating with the Supplier if applicable, and handle future utility negotiations.

There are over 100 Electricity Suppliers and 75 Natural Gas Suppliers. Which Supplier do you choose? Regardless of which Utility Company you choose, our fee is paid by the Supplier.

You keep your eye on your business...we'll keep our eye on your Utilities!

Please contact me for more information about our Professional Energy Management Services.

Thank you,

*Lela Smith*

Energy Consultant

**Client Agreement:**

In consideration for providing its proprietary methods to CLIENT listed below, CLIENT hereby authorizes Seven Utility Management Consultants (SUMC) to represent CLIENT in obtaining usage data and energy supply offers, evaluating offers, and assist in contract execution or otherwise advising on energy related matters. If any written request for historical usage is required, SUMC will submit a copy of this signed agreement as proof of our approval in a request made on your behalf. CLIENT hereby agrees that during the term of this agreement, 90 days from the date of execution, SUMC shall be the exclusive provider of all energy related matters to CLIENT. All utility service providers are hereby requested to forward all usage, offers, communications and correspondence concerning CLIENT to SUMC. Notwithstanding anything to the contrary herein, this appointment is subject to CLIENT not being under contract with another provider of related services and shall not require CLIENT to breach any other agreement.
